**New ISHR-ES member from June 2019**

In June 2019, Nina Kaludercic (Italy) joined the council. We would like to welcome the new council member and thank Alessandra Ghigo (Italy) for her dedicated service and contributions to the ISHR-ES.

**ISHR-ES Congress Turin 30 June - 3 July 2020 - SAVE THE DATE!**

We would like to remind you of the dates for the ISHR 2020 36th Annual Meeting of the International Society for Heart Research European Section from the 30 June - 3 July 2020. Additional information at: <https://ishr2020.azuleon.org>.

**New committee for ISHR Mid-career Investigators**

ISHR has an outstanding program for Early Career Investigators (ECIs), which ISHR International defines as within 8 years after their terminal degree. Motivated by the results of a survey that was done just following the 2016 World Congress indicated that networking and other opportunities for Mid-Career Investigators (MCIs) were lacking and that this was an area in which ISHR could improve for the 2019 World Congress. For this reason ISHR established an MCI committee similar to the committee in place for the ECIs. We appreciate that the interest and activities of the MCI will be different than ECIs. MCIs are defined as between 8 and 15 years post terminal degree (excluding anyone who has reach the rank of full professor). We are happy to report that Nina Kaludercic (Italy) and Davor Pavlovic (UK) became members of the committee for ISHR Mid-Career Investigators.

**ISHR-ES Membership**

We would like to remind our members to ensure their membership profiles and paid membership dues are up to date – this can be done online [here](#).

Best wishes,

Zoltán Papp
